**Thoughts from a Connecticut
Yankee** . . .with apologies to Mark Twain

- Emphasis on saving taxpayer funding; not on specific agency quality of work.
- State Board of Accountancy (SBOA) caught in a larger fiscal problem not of its making.
- Private Relationships Count.
- NASBA Was Terrific! SBOA needed outside and credible assistance. NASBA provided it.
- Plan both a public and private strategy.
- It is never over; a battle won today could and will be easily replayed next year.
